USER'S GUIDE GUÍA DEL USUARIO

Please keep all information for future reference. Guarde toda información para tener como referencia futura.

Safety Precautions

Before trying to use the piano, be sure to read the separate "Safety Precautions".

Precauciones de seguridad

Antes de intentar usar el piano, asegúrese de leer las "Precauciones de seguridad" separadas.

IMPORTANT SAFETY INSTRUCTIONS

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11. Only use attachments/accessories specified by the manufacturer.
- 12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

- 13. Unplug this apparatus during lightning storms or when unused for long periods of time.
- 14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

The power indicator being unlit does not mean the apparatus is completely disconnected from the MAINS.

When you need to have the apparatus completely disconnected from the MAINS, you must unplug the power cord. For that purpose, locate the apparatus in a way that secures easy access to the power cord.

NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC WARNING

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Important!

Please note the following important information before using this product.

- Before using the AD-12 Adaptor to power the product, be sure to check the AC Adaptor for any damage first. Carefully check the power cord for breakage, cuts, exposed wire and other serious damage. Never let children use an AC adaptor that is seriously damaged.
- The product is not intended for children under 3 years.
- Use only CASIO AD-12 adaptor.
- The AC adaptor is not a toy.
- Be sure to disconnect the AC adaptor before cleaning the product.

This mark applies in EU countries only.

MIDI Implementation Chart

General Guide

⚠ CAUTION

• Make sure that the cover is fully open whenever you are playing on the keyboard. A partially open cover can suddenly close unexpectedly and pinch your fingers.

- The names shown here are always indicated in bold when they appear within the text of this manual.
- ① PHONES jack
- ② DC 12V terminal
- 3 MIDI IN terminal
- 4 MIDI OUT terminal
- ⑤ Pedal connector
- **® VOLUME** controller
- **TONE/SETTING** button
- SONG ►/■ button

- LR button
- ® RECORDER button
- **METRONOME** button
- GRAND PIANO (CLASSIC) button
- GRAND PIANO (MODERN) button
- Power lamp
- ® POWER button

TONE/SETTING Button

The **TONE/SETTING** button is used when configuring a variety of different digital piano settings. The following are **TONE/SETTING** button basics.

 To change a setting, hold down the TONE/SETTING button as you press the keyboard key that is assigned the setting you want to select.

An operation confirmation tone will sound whenever you press a keyboard key to configure a setting.

Example: "Selecting a Tone Using the Keyboard Keys" on page E-7.

For details about operations and settings, see "Configuring Settings with the Keyboard" on page E-18.

Saving Settings and Using Operation Lock

Your digital piano lets you save its current settings, and lock its buttons to protect against operation errors. For details, see "[®] Setup Memory" and "[®] Operation Lock" on page E-22.

Power Outlet

Your digital piano runs on standard household power. Be sure to turn off power whenever you are not using the digital piano.

Using an AC Adaptor

Use only the AC adaptor (AD-12) that is specified for use with this digital piano. Secure the adaptor cord with the clip next to the AC adaptor terminal*.

NOTE

• For information about how to install the clip, see step 8 on page E-26.

* Using the Clip

■ To fasten the clip

As shown in the illustration, press down on (a) to force the tip of the clip into the slot. Press down until you hear the clip click securely into place.

■ To release the clip

As shown in the illustration, press (b) in the direction indicated by the arrow.

⚠ Note the following important precautions to avoid damage to the power cord.

During Use

- Never pull on the cord with excessive force.
- Never repeatedly pull on the cord.
- Never twist the cord at the base of the plug or connector.
- The power cord should not be stretched tight while it is in use.

During Movement

• Before moving the digital piano, be sure to unplug the AC adaptor from the power outlet.

During Storage

• Loop and bundle the power cord, but never wind it around the AC adaptor.

- Make sure the digital piano is turned off before plugging in or unplugging the AC adaptor.
- The AC adaptor will become warm to the touch after very long use. This is normal and does not indicate malfunction.

Connections

IMPORTANT!

 Whenever connecting something to the digital piano, first use the VOLUME controller to set the volume to a low level. After connecting, you can adjust the volume to the level you want.

Connecting Headphones

Connect commercially available headphones to the **PHONES** jack. Connecting headphones to the **PHONES** jack cuts off output to the speakers, which means you can practice even late at night without bothering others. To protect your hearing, make sure that you do not set the volume level too high when using headphones.

NOTE

• Be sure to push the headphones plug into the **PHONES** jack as far as it will go. If you don't, you may hear sound from only one side of the headphones.

Connecting Audio Equipment or an Amplifier

You can connect audio equipment or a music amplifier to the digital piano and then play through external speakers for more powerful volume and better sound quality.

■ Connecting Audio Equipment (Figure **①**)

Use commercially available connecting cords (Standard Plug × 1, Pin Plugs × 2) to connect as shown in Figure ①. Make sure that the end of the cord that you connect to the digital piano is a stereo standard plug. A monaural standard plug will result in output of only one of the two stereo channels. Normally, you should set the input selector of the audio equipment to the terminal where the digital piano is connected (AUX IN, etc.) Adjust volume using the digital piano's **VOLUME** controller.

■ Connecting a Music Amplifier (Figure ②)

Connect the connecting cord* to one of the types of amplifiers shown in Figure ②.

Adjust volume using the digital piano's **VOLUME** controller.

* Digital Piano: Stereo standard plug
Amplifier: Inputs signals for the left and right
channels. Not connecting either plug will
result in output of only one of the two
stereo channels.

Bundled and Optional Accessories

Use only accessories that are specified for use with this digital piano. Use of unauthorized accessories creates the risk of fire, electric shock, and personal injury.

Playing with Different Tones

Selecting and Playing a Tone

This digital piano has 11 built-in tones.

- * You can select these tones using keyboard keys. The name of the tones assigned to each keyboard key is marked above the keys. For details about selecting these tones, see "Selecting a Tone Using the Keyboard Keys" on page E-7.
- Press the **POWER** button to turn on the digital piano.

- When you turn on the piano, it performs a power up operation in order to initialize its system. During system initialization, the LR button lamps flash for about six seconds to let you know that system initialization is in progress.
- 2. Select the tone you want.
 - Press one of the **GRAND PIANO** buttons to select either a modern sound (**MODERN**) or a classic sound (**CLASSIC**).
 - A lamp will light above the currently selected button.
 - See "Selecting a Tone Using the Keyboard Keys" on page E-7 for information about selected other tones.
- 3. Use the VOLUME controller to adjust the volume level.
- 4. Try playing something on the digital piano.

Grand Piano Tones (MODERN, CLASSIC)
 Your digital piano has a total of 11 built-in tones. The
 MODERN and CLASSIC tones are stereo sampled tones
 that can be selected using the GRAND PIANO buttons.
 Try using the GRAND PIANO tones to familiarize
 yourself with their distinctive sounds and characteristics.

Tone Name Characteristics		
MODERN	This tone provides a bright and hard grand piano sound. The volume and timbre of this tone is quick to respond to different keyboard pressures, and it has relatively strong reverb. This tone is a good choice for dynamic and lively performances.	
CLASSIC	This is a natural piano tone that closely resembles the sound of an acoustic grand piano. Though reverb and other effects are kept to a minimum, doing so enhances the impact of operating the piano pedals (acoustic resonance), for musically delicate expressions. This tone is a good choice for lesson and practice sessions.	

Selecting a Tone Using the Keyboard Keys

Example: Pipe Organ

■ Bass Tones (BASS 1, BASS 2)

Selecting either of the two bass tones (BASS 1, BASS 2) on the right side of the tone setting keys in step 1 of the above procedure will assign the selected bass tone to the low range (left side) of the keyboard. The high range (right side) will be assigned the tone that was selected when you pressed the BASS 1 or BASS 2 key.

• The BASS 1 and BASS 2 keys let you effectively split the keyboard between two different tones.

- To return the keyboard to a single tone, select any tone other than BASS 1 or BASS 2.
- You cannot select BASS 1 or BASS 2 when recording to Track 2.

Adjusting the Brilliance of a Tone

1 While holding down the **TONE/SETTING** button, use the BRILLIANCE keys to specify a brilliance value in the range of –3 to 3.

For this type of sound:	Press this keyboard key:
Mellower and softer	▼
Brighter and harder	A

NOTE

To return a tone to its initial default setting, press ▼ and
 ▲ at the same time.

Layering Two Tones

Use the following procedure to layer two tones, so they sound at the same time.

1 While holding down the **TONE/SETTING** button, simultaneously press the keyboard keys that correspond to the two tones that you want to layer.

Example: To layer HARPSICHORD and STRINGS.

To unlayer the keyboard, select another tone by pressing the GRAND PIANO button or by using the procedure under "Selecting a Tone Using the Keyboard Keys" (page E-7).

- You cannot layer the BASS 1 or BASS 2 tone with another tone
- You cannot perform the layer operation when recording to Track 2.

Using Effects

Reverb....Makes your notes resonate.

Chorus ... Adds more breadth to your notes.

To configure reverb and chorus effect settings

While holding down the TONE/SETTING button, press the REVERB or CHORUS keyboard key.

Example: Selecting Reverb 4

• Reverb Value

To do this:	Select this setting:
Turn off reverb	OFF
Turn on reverb	1: Room 2: Small Hall 3: Large Hall 4: Stadium

• Chorus Value

To do this:	Select this setting:
Turn off chorus	OFF
Turn on chorus	1: Light Chorus 2: Medium Chorus 3: Deep Chorus 4: Flanger (Whooshing effect)

Using the Digital Piano's Pedals

Your digital piano comes equipped with three pedals: damper, soft, and sostenuto

Pedal Functions

• Damper Pedal

Pressing the damper pedal while playing will cause the notes you play to reverberate for a very long time.

 When a GRAND PIANO tone (MODERN, CLASSIC, VARIATION) is selected as the tone, pressing this pedal will cause notes to reverberate (acoustic resonance) just like the damper pedal on an acoustic grand piano.

Soft Pedal

Pressing this pedal while playing suppresses notes played on the keyboard after the pedal was pressed, and makes them sound softer.

Sostenuto Pedal

Only the notes of the keys that are depressed when this pedal is pressed are sustained until the pedal is released.

Using the Metronome

- 1 Press the **METRONOME** button.
 - This starts the metronome.
 - The lamp above the SONG ►/■ button flash in time with the metronome beat.
- 2. To change the beat, hold down the TONE/ SETTING button as you press one of the METRONOME BEAT keys to select a beat setting.

- You can specify a beat value of 0, 2, 3, 4, or 6 as the beat. Specifying 0 as the setting plays a straight click, without any chime. This setting lets you practice with a steady beat.
- **3.** While holding down the **TONE/SETTING** button, use the TEMPO keys to specify a tempo value in the range of 20 to 255 beats per minute.

- Each press of the + or key raises or lowers the tempo value by 1.
- You can use the value input keys (0 to 9) to enter a specific value. Be sure to input all three digits. *Example:* To enter "96", press keys 0, 9, 6.

4. Press the **METRONOME** button or **SONG ▶**/■ button to turn off the metronome.

NOTE

• To return the tempo setting to the default tempo of the currently selected Music Library tune, press the + and – keys at the same time in step 3. Pressing + and – while recording will return the tempo value to 120.

To adjust the metronome volume

NOTE

- You can perform the following procedure at any time, regardless of whether or not the metronome is sounding.
- While holding down the TONE/SETTING button, use the METRONOME VOLUME keys to specify a volume value in the range of 0 to 42.
 - For details about using the keyboard keys for settings, see "Keyboard Keys Used for Configuring Settings" on page E-19.
 - Each press of the ▼ or▲ key raises or lowers the metronome volume value by 1.

 To return to the initial default setting, press ▼ and ▲ at the same time.

Playing a Piano Duet

You can use the Duet Mode to split the piano's keyboard in the center so two people can play a duet. The left and right side keyboards have virtually the same range. The left pedal operates as the left side damper pedal, while the right pedal is the right side damper pedal.

The Duet Mode is the perfect way to conduct lessons, with the teacher playing on the left side as the student playing the same song on the right side.

Keyboard

Pedals

Press one of the GRAND PIANO buttons (MODERN or CLASSIC) to select the piano tone you want to use for the duet.

NOTE

- You can use only the MODERN or CLASSIC tone for a duet.
- Press the MODERN and CLASSIC GRAND PIANO buttons at the same time.
 - This will enter the Duet Mode and split the keyboard. The GRAND PIANO lamp will flash momentarily to let you know when the Duet Mode is entered.
- 3 To exit the Duet Mode, press either the MODERN or CLASSIC GRAND PIANO button.

IMPORTANT!

- The digital piano also will exit the Duet Mode if you use the TONE/SETTING button and tone setting keyboard keys to select a tone in step 3.
- · You cannot use the Duet Mode while recording.

Changing the Octaves of the Keyboards

You can change the ranges of the left and right keyboards in octave units from their initial default settings. This comes in handy, for example, if the initial default range is not enough when one person is playing the left hand part and another person is playing the right hand part.

While holding down the MODERN and CLASSIC GRAND PIANO buttons, press the keyboard key of C that you want located at C4 (middle C) of the left keyboard.

Example: Press the keyboard key of the leftmost C will assign the range shown below.

While holding down the MODERN and CLASSIC GRAND PIANO buttons, press the keyboard key of C that you want located at C4 (middle C) of the right keyboard.

• You can return the keyboards to their initial default ranges by exiting and then re-entering the Duet Mode.

Playing Back Built-in Songs

IMPORTANT!

 After you select a built-in song, it can take a number of seconds for the song data to be loaded. While the data is being loaded, the keyboard keys and button operations will be disabled. Selecting a song while playing something on the keyboard will cause sound output of the keyboard notes to stop.

Playing Back All of the Built-in Songs

Your digital piano comes with a Music Library of 60 built-in tunes. You can play all 60 tunes in sequence, from beginning to end.

- ¶ While holding down the TONE/SETTING button, press the SONG ▶/■ button.
 - This will start repeat demo playback of the built-in songs in sequence, from 01 through 60.
 - You can play along with a song on the keyboard as it is playing. The tone assigned to the keyboard is the one that is preset for the song that is playing.
 - You can select a specific song during demo playback.
 For details, see step 2 under "Playing Back a Specific Music Library Song".
- Press the SONG ►/■ button again to stop built-in song play.

- The tune selection and playback stop operations described above are the only operations that are possible during demo tune play.
- Built-in tune MIDI data is not output during built-in song play.

Playing Back a Specific Music Library Song

- **1** Find the song number of the song you want to play in the song list on page A-1.
- To change to another song, hold down the TONE/SETTING button as you use the SONG SELECT keys to specify a song number.

- Each press of the + or key raises or lowers the song number by 1.
- You can use the value input keys (0 to 9) to enter a specific song number. Be sure to input all two-digits.

Example: To select song 08, enter 0 and then 8.

MPORTANT!

Be sure to allow a bit of time between + and - key operations. Performing a series of + and - key operations too quickly can cause some of the operations to be skipped.

- 3. Press the **SONG** ▶/■ button.
 - This starts the playback of the song.
- **4** To stop playback, press the **SONG** ►/■ button again.
 - Playback will stop automatically when the end of the song is reached.

NOTE

- Pressing the + and keys at the same time will select song number 01.
- You also can adjust the playback tempo and volume of the song. See "Configuring Settings with the Keyboard" on page E-18 for more information.
- Built-in tune MIDI data is not output during built-in song play.

Practicing with a Music Library Song

You can turn off the left hand part or right hand part of a song and play along on the piano.

NOTE

- The Music Library includes duet tunes (song numbers 12, 37, and 45). While a duet is selected, you can turn off the first piano <Primo> or second piano <Secondo> tone and play along with the song.
- A number of tunes have tempo changes part way through in order to produce specific musical effects.

PREPARATION

- Select the song you want to practice and adjust the tempo. See "Configuring Settings with the Keyboard" on page E-18.
- 1. Use the **LR** button to turn off a part.
 - Each press of the **LR** button cycles through the part settings as shown below. The indicator lamps above the button show which part is turned off.

- 2. Press the **SONG** ▶/■ button.
 - This starts playback, without the part you turned off in step 1.
- 3. Play the missing part on the keyboard.
- **4** To stop playback, press the **SONG** ►/■ button again.

Recording and Play Back

You can store the notes you play in digital piano memory for later playback.

Tracks

A track is a container of recorded data, and a song consists of two tracks: Track 1 and Track 2. You can record each track separately and then combine them so they play back together as a single song.

■ Memory Capacity

- You can record approximately 5,000 notes in digital piano memory.
- When remaining memory capacity is 100 notes or less, the track lamp flashes at high speed to alert you.
- Recording stops automatically if the number of notes in memory exceeds the maximum.

■ Recorded Data

- Keyboard play
- Tone used
- Pedal operations
- Reverb and chorus settings (Track 1 only)
- Tempo setting (Track 1 only)
- Layer setting (Track 1 only)

■ Recorded Data Storage

- Starting a new recording deletes any data that was previously recorded in memory.
- Should power fail during recording, all of the data in the track you are recording will be deleted.

 CASIO COMPUTER CO., LTD. takes no responsibility for any damages, lost profits, or claims by third parties arising from the deletion of recorded data due to malfunction, repair, or for any other reason.

■ Using the RECORDER Button

Each press of the **RECORDER** button cycles through the recording options in the sequence shown below.

Recording Your Keyboard Play

After recording to either of the tracks of a song, you can record to the other track while listening to playback what you recorded in the first track.

To record to a specific track of a song

1 Press the **RECORDER** button twice so its lamp is flashing.

• At this time the L lamp will flash to indicate that the digital piano is standing by for recording to Track 1.

- Use the LR button to select the track to which you want to record.
 - Make sure that the indicator lamp for the record track is flashing.

Track 1: L lamp Track 2: R lamp

Example: Track 1 Selected

- 3 Select the tone and effects (Track 1 only) you want to use in your recording.
 - Tone (page E-6)
 - Effect (page E-9)

• If you want the metronome to sound while you are recording, configure the beat and tempo settings, and then press the **METRONOME** button. See "Using the Metronome" on page E-10 for more information.

- 4. Start playing something on the keyboard.
 - Recording will start automatically.
- 5 To stop recording, press the SONG ►/■ button again.
 - This will cause the **RECORDER** button and **LR** button lamps to change from flashing to lit.
 - To play back the track you just recorded, press the SONG ►/■ button.
- 6 After you are finished recording or playing back, press the **RECORDER** button so its lamp goes out.

To record to one track of a song while listening to the playback of the other track

Press the **RECORDER** button so its lamp is lit.

- 2. Press the **LR** button until the lamp of only the track to which you want to play back is lit.
- **3.** Press the **RECORDER** button so its lamp is flashing.
 - This will cause the L lamp to flash.
- **4.** Use the **LR** button to select the track to which you want to record.
 - Make sure that the indicator lamp for the record track is flashing.

Example: To listen to playback of Track 1 as you record to Track 2

- **5** Select the tone and effects (Track 1 only) you want to use for your recording.
- 6 Press the SONG ►/■ button or play something on the keyboard.
 - This will start both playback of the recorded track and recording to the other track.
- 7 To stop recording, press the SONG ►/■ button.

To play back from digital piano memory

1 Press the **RECORDER** button so its lamp is lit.

NOTE

- When a song has something recorded in both tracks, you
 can turn off one track and play back just the other track,
 if you want. Whether a track is on or off is indicated by
 the lamps above the LR button. Each press of the LR
 button cycles through the different possible track on/off
 settings.
- 2. Press the **SONG** ▶/■ button.
 - This starts playback of the song and/or track you selected.

- You can change the tempo setting as a track is playing.
- Press the **SONG** ▶/■ button again to stop playback.

Deleting Recorded Data

The following procedure deletes a specific track of a song.

IMPORTANT!

- The procedure below deletes all of the data of the selected track. Note that the delete operation cannot be undone. Check to make sure you really do not need the data in digital piano memory before you perform the following steps.
- 1 Press the **RECORDER** button so its lamp is lit.
- **2.** Press the **RECORDER** button again so its lamp is flashing.

- Use the LR button to select the track you want to delete.
 - This causes the lamp of the selected track to flash.
- **4.** Keep the **RECORDER** button depressed until its lamp changes from flashing to lit.

Example: To delete Track 2

- 5. Press the LR button.
 - This deletes the selected track and enters playback standby.
 - To cancel the delete operation, press the **RECORDER** button in place of the **LR** button.

 Only the digital piano's LR button and RECORDER button are operational from step 4 until you actually perform the delete operation in step 5. No other button operation can be performed.

Configuring Settings with the Keyboard

In addition to selecting tones and Music Library tunes, you also can use the **TONE/SETTING** button in combination with the keyboard keys to configure effect, keyboard touch, and other settings.

To configure settings with the keyboard

- Use the "Parameter List" on page E-20 to find the setting you want to configure, and note its details.
- Use "Keyboard Keys Used for Configuring Settings" on page E-19 to find the location on the keyboard for configuring the setting you want.
- While holding down the TONE/SETTING button, press the keyboard key for the setting you want to configure.
 - The digital piano will sound an operation tone after it configures the setting.

Example: To lower the transpose setting by one semitone by pressing the ▼ keyboard key once.

4 Release the **TONE/SETTING** button to complete the setting procedure.

• You can configure the digital piano so no operation tone sounds in step 3. For details, see "[®] Operation Tone" under "Parameter List" on pages E-20 - E-22.

■ Keyboard Setting Operation Types

There are three types of operations that you can perform while configuring settings with the keyboard keys: Type A, Type B, and Type C.

Type A: Direct input

Example: Pressing the STRINGS keyboard key to select the STRINGS tone

Type B: Raising or lowering a setting using the + and – or ▼ and ▲ keyboard keys

- Holding down a key raises or lowers the setting at high speed.
- To return to the initial default setting, press both keys at the same time.

Type C: Value input using the numeric keys (0 to 9) *Example*: To enter "120", press keys 1, 2, 0.

 You can find out what operation type applies to each setting by checking the "Operation Type" in the "Parameter List" on page E-20.

Keyboard Keys Used for Configuring Settings

• The numbers ① through ② correspond to the same numbers in the "Parameter List" on page E-20.

[Left keyboard]

Parameter List

■ Tones

Parameter	Settings	Operation Type (page E-18)	Description	Remarks
① Tone selection	See page E-6. Default: GRAND PIANO (MODERN)	A	Assigns a tone to the keyboard. (page E-6)	
② Brilliance (BRILLIANCE)	-3 to 0 to 3 Default: 0	В	Specifies the brilliance of notes. (page E-8)	
③ Reverb (REVERB)	Off (OFF), 1 to 4 Default: 2	A	Specifies the reverb of notes. (page E-9)	
(4) Chorus	Off (OFF), 1 to 4 Default: Off	A	Controls the breadth of notes. (page E-9)	 Chorus is not available in the Duet Mode. When tones are layered, Chorus is applied only to the second tone you select for layering. Turning on Chorus while a bass tone is selected will apply the effect to the bass tone only. Chorus will not be applied to the high-range tone.

■ Song/Metronome

= Solig/Metroli	Onie			
Parameter	Settings	Operation Type (page E-18)	Description	Remarks
⑤ Song Select (SONG SELECT)	01 to 60 Default: 01	B (+/-) C (0 to 9)	Selects a Music Library tune. (page E-12)	 Always enter two-digits when using the number keys (0 to 9) to input a value. Example: To input 8, enter 0, 8 (leading zero required). This setting cannot be changed while recording.
⑥ Tempo (TEMPO)	020 to 255 Default: 120	B (+/-) C (0 to 9)	Specifies the tempo of Music Library songs, the metronome, recording and playback, etc. (page E-10)	 Always enter three digits when using the number keys (0 to 9) to input a value. Example: To input 90, enter 0, 9, 0 (leading zero required). During recording, pressing + and – at the same time sets a value of 120.
MetronomeBeat(METRONOMEBEAT)	0, 2, 3, 4, 6 Default: 4	A	Specifies the metronome beat. (page E-10)	The metronome beat setting cannot be changed while playback of a Music Library tune is in progress.
Song volume	00 to 42 Default: 42	В	Sets the volume level of Music Library playback.	This setting cannot be changed while recording.
Metronome Volume	00 to 42 Default: 36	В	Specifies the metronome volume. (page E-10)	

■ Keyboard

Parameter	Settings	Operation Type (page E-18)	Description	Remarks
① Touch Response (TOUCH RESPONSE)	Off (OFF), 1 to 3 Default: 2	A	Specifies the relative touch of the keyboard keys. Setting a smaller value causes lighter touch to produce more powerful sound.	
① Keyboard Key (Transpose)	–12 to 0 to 12 Default: 0	В	Raises or lowers the tuning of the digital piano in semitone steps.	 The transpose setting cannot be configured while Music Library playback is in progress and in the Duet Mode. Raising the key of the digital piano can cause notes the highest notes in the range of a tone to become distorted.
② Keyboard tuning (Tuning)	–99 to 0 to 99 Default: 0	В	Raises or lowers the overall pitch of the digital piano in 1-cent steps (100 cents = 1 semitone) from the standard pitch of A4 = 440 Hz.	The pitch setting cannot be changed while playback of a Music Library tune is in progress.

■ MIDI and Other Settings

Parameter	Settings	Operation Type (page E-18)	Description	Remarks
③ Send Channel	01 to 16 Default: 01	В	Specifies one of the MIDI channels (1 through 16) as the Send Channel, which is used for sending MIDI messages to an external device.	
Local Control	Off, On Default: On	A	Selecting "Off" for Local Control cuts off the digital piano's sound source, so no sound is produced by the digital piano when keys are pressed. Turn off local control when you want to sound only the connected MIDI device.	The Local Control setting cannot be changed while playback of a Music Library tune is in progress.
(§ Operation Tone	Off, On Default: On	A	Selecting "Off" disables sounding of the operation tone whenever a keyboard key is pressed while the TONE/SETTING is depressed.	 This setting is retained even when the digital piano is turned off. The operation tone setting cannot be changed while Music Library playback is in progress, while the metronome is sounding, and during recording.
® Setup Memory	Off, On Default: Off	A	When "On" is selected for this setting, the digital piano will remember its current settings*1, and restore them when it is turned on again. When "Off" is selected, settings*2 are reset to their initial defaults whenever the digital piano is turned on.	 To clear current setup memory contents, turn the Setup Memory setting off and then back on again. The Setup Memory setting cannot be changed while Music Library playback is in progress, while the metronome is sounding, in the Duet Mode, and during recording. *1 The following settings are not remembered. Duet Mode Tune LR (part) setting Local Control *2 Except for the operation tone on/off setting.
① Operation Lock	Off, On Default: Off	A	Selecting "On" for this setting locks the digital piano's buttons (except for the power button and the buttons required for unlock), so no operation can be performed. Turn on operation lock when you want to protect against unintentional button operations.	The operation lock setting cannot be changed while Music Library playback is in progress, while the metronome is sounding, and during recording.

Connecting to the MIDI Terminal

■ What is MIDI?

MIDI is a standard for digital signals and connectors that allows musical instruments, computers, and other devices, regardless of manufacturer, to exchange data with each other.

NOTE

 For details about MIDI implementation, visit: http://world.casio.com/

■ MIDI Connections

Connecting your computer or other external MIDI device to the digital piano's **MIDI OUT/IN** terminals makes it possible for them to exchange MIDI messages and record and playback keyboard notes on the connected device.

■ MIDI Settings

You can use the procedure in "Configuring Settings with the Keyboard" (page E-18) to configure MIDI settings. See page E-22 for a description of the settings and information about how to configure them.

Assembling the Stand

Unpacking

PREPARATION

• This stand does not include any of the tools required for assembly. It is up to you to prepare a large Philips head (+) screwdriver for assembly.

☑ IMPORTANT!

- If anything is missing or damaged, contact your local CASIO service provider.
- Note that use of any unauthorized parts or components can cause damage to the stand and/or the digital piano.
- Before starting stand assembly, unfasten the band 1 that bundles the pedal cable in the back of crosspiece D, and extend the cable.

⚠ CAUTION

- Assembly of the stand should be performed by at least two people working together.
- This stand should be assembled on a flat surface.
- Do not remove the tape securing the keyboard cover in place until assembly is complete. Removing the tape can cause the keyboard cover to open and close during assembly, creating the risk of personal injury to your hands and fingers.
- Take care that you do not pinch your fingers between parts when assembling them.

To assemble the stand

- **1** Attach side panels (a) and (b) to crosspiece (d). Secure the side panels using four (c) screws.
 - When installing part ②, slide the brackets ③ into the slots in either end crosspiece ⑤. If the brackets ③ are not inserted into the ends of the crosspiece ⑥ as far as they will go, the ⑥ screws will not be able to enter into the screw holes of the brackets ⑤, which can strip the threads of the screws.
 - Cover the screw heads with the caps ①.

Slide back panel © into the grooves of the side panels.

- **3.** Use the two screws ① to secure the top left and right edges of the back panel ② to the brackets **6** of side panels ④ and ⑧.
 - At location **3**, slip the **©** clip onto to the **①** screw before installing the screw.

4. Next, secure the bottom of the back panel © with the six ⑤ screws.

5. Adjust the height adjustment screw to provide support so crosspiece @ does not bow downwards when the pedals are pressed.

MPORTANT!

 Pressing the pedals without adjusting height adjustment screw can result in damage to crosspiece . Always make sure you adjust height adjustment screw before operating the pedals. 6. Place the piano onto the stand.

• At this time the screws on the bottom of the piano **3** should hook into the cutouts in the stand brackets **9**.

7. Use the two ® butterfly bolts to secure the piano to the stand.

IMPORTANTI

 The butterfly bolts keep the piano from slipping off the stand. Never use the piano without the butterfly bolts installed.

- **8** Affix the adaptor cord clip ® next to the power terminal (DC12V).
 - For information about securing the cord, see "Power Outlet" on page E-4.

To connect the pedal cord

- 1. Orienting the pedal plug as shown in the illustration, plug it into the pedal connector on the bottom of the piano.
 - Secure the pedal cord with the clip ©.

To install the music stand

1. Install the music stand by inserting its pegs into the holes in the top of the piano.

Product Specifications

Model	AP-200
Keyboard	88-key piano keyboard, with Touch Response
Maximum Polyphony	128 notes
Tones	11Layer (excluding bass tones)Split (Low-range bass tones only)
Effects	Brilliance (-3 to 0 to 3), Reverb (4 types), Chorus (4 types), Acoustic Resonance
Metronome	Beats: 0, 2, 3, 4, 6 Tempo Range: 20 to 255
Duet	Adjustable tone range (-2 to 0 to 1 octaves)
Music Library	 Number of Songs: 60 Song volume: Adjustable Part On/Off: L, R
Recorder	Functions: Real-time recording, playback Number of Song: 1 Number of Tracks: 2 Capacity: Approximately 5,000 notes total Recorded Data Protection: Built-in flash memory
Pedals	Damper, soft, sostenuto
Other Functions	 Touch Select: 3 types, Off Transpose: ±1 octaves (-12 to 0 to 12) Tuning: A4 = 440.0 Hz ±99 cents (variable) Operation Lock
MIDI	16-channel multi-timbre receive
Inputs/Outputs	PHONES jack: Stereo standard jacks × 2 Output impedance: 170Ω Output Voltage: 5.6V (RMS) MAX Power: 12V DC MIDI OUT/IN terminals Pedal connector
Speakers	ϕ 12cm × 2 (Output 8W + 8W)
Power Requirements	AC Adaptor: AD-12
Power Consumption	12V 18W
Dimensions	Digital Piano and Stand: 139.5 (W) \times 43.2 (D) \times 83.8 (H) cm (54 $^{15}/_{16} \times$ 17 \times 33 inch)
Weight	Digital Piano and Stand: approximately 37.5 kg (82.7 lbs)

Operating Precautions

Be sure to read and observe the following operating precautions.

■ Location

Avoid the following locations for this product.

- Areas exposed to direct sunlight and high humidity
- Areas subjected to temperature extremes
- Near a radio, TV, video deck, or tuner
 The above devices will not cause malfunction of
 the product, but the product can cause interference
 in the audio or video of a nearby device.

■ User Maintenance

- Never use benzene, alcohol, thinner, or other chemical agents to clean the product.
- To clean the product or its keyboard, wipe with a soft cloth moistened in a weak solution of water and a mild neutral detergent. Wring all excess moisture from the cloth before wiping.

■ Included and Optional Accessories

Use only accessories that are specified for use with this product. Use of unauthorized accessories creates the risk of fire, electric shock, and personal injury.

■ Weld Lines

Lines may be visible on the exterior of the product. These are "weld lines" that result from the plastic molding process. They are not cracks or scratches.

■ Musical Instrument Etiquette

Always be aware of others around you whenever using this product. Be especially careful when playing late at night to keep the volume at levels that do not disturb others. Other steps you can take when playing late at night are closing the window and using headphones.

- Any reproduction of the contents of this manual, either in part or its entirety, is prohibited. Except for your own, personal use, any other use of the contents of this manual without the consent of CASIO is prohibited under copyright laws.
- IN NO EVENT SHALL CASIO BE LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF PROFITS, BUSINESS INTERRUPTION, LOSS OF INFORMATION) ARISING OUT OF THE USE OF OR INABILITY TO USE THIS MANUAL OR PRODUCT, EVEN IF CASIO HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
