## Operation Guide 5472

*For full information about city codes, see the "City Code Table" at the back of this manual.

- The hour hand, minute hand, and day of the week change in accordance your settings

## Daylight Saving Time (DST)

Daylight Saving Time (summer time) advances the time setting by one hour from Standard Time. Remember that not all countries or even local areas use Dayligh Saving Time.

To toggle the Timekeeping Mode time between DST and Standard Time

12/24-Hou

- With the 12 -hour format, the PM (P) indicator appears for times in the range of noon to 11:59 p.m. and no indicator appears for times in the range of midnight to 11:59 a.m.

With the 24 -hour format, times are displayed in the range of $0: 00$ to $23: 59$, without any indicator.

The 12-hour/24-hour timekeeping format you select in the Timekeeping Mode is applied in all other modes.

## Ilumination

An LED (light-emitting diode) illuminate the display for easy reading in the dark.
Illumination Precautions

- The illumination provided by the light may be hard to see when viewed under direct sunlight
.
- Frequent use of illumination runs down the battery.

To turn on illumination
In any mode (except when a setting screen is on the display), press (B) to turn on illumination.
You can use the procedure above to select either 1.5 seconds or 3 seconds as the illumination duration. When you press (B), the illumination will remain on for about 1.5 seconds or 3 seconds, depending on the current illumination duration setting.

## World Time

## Current World Time

## information

World Time shows the current time in 48 cities ( 31 time
 zones) around the world
the the operations in this section are performed in , (page E-4)
To view the time for another city code
In the World Time Mode, press (D) to scroll eastwardly through city codes.

- Trab" at mation about city codes, see the "City Code

If the " at the back of this manual.

- When the end of the countdown is reached, the alarm
- When the end of the countdown is reached, the alarm
sounds for ten seconds or until you stop it by pressing sounds for ten seconds or untir you stop it by pressing value automatically when the alarm sounds.
- Press (D) while a countdown operation is in progress to
pause it. Press (D) again to resume the countdown.
- To stop a countdown operation completely, first pause it (by pressing (D)), and then press (A). This returns the countdown time to its starting value.

## Stopwatch

The stopwatch lets you measure elapsed time, split times, and two finishes.
The display range of the stopwatch is 23 hours,
59 minutes, 59.99 seconds.
it reapwatch continues to run, restarting from zero after
it reaches its limit, until you stop it.

- The stopwatch measurement operation continues even if
you exit the Stopwatch Mode.
Exiting the Stopwatch Mode while a split time is frozen
on the display clears the split time and returns to elapsed
time measurement.
the Stopwatch Mod in this section are performed in (page E-5).

To measure times with the stopwatch

Adjusting Hand Positions

The watch hands can go out of alignment with the time on the digital display if it is exposed to strong magnetism or impact. If this happens, you should adjust the hand or impact.

- All of the operations in this section are performed in the Hand Setting Mode, which you enter by pressing (C) (page E-5)

## Important!

- You do not need to perform the operation below as long as the analog hands indicate the same time as the digital display.

1. In the Hand Setting Mode, hold down (A) for about one second.

- This will cause the displayed hour and minutes to start to flash. This is the setting screen.

2. Use (D) (+) to change the hour hand and minute hand positions so they match the digital time.

- Holding down (D) moves the hands clockwise at high speed
-While holding down (D) to move the hands at high speed, press (B) to lock the hands in high speed movement. To stop locked high-speed hand movement, press any button.

3. After the hands are the way you want, press (A) to exit the setting screen.

## Reference

This section contains more detailed and technical information about watch operation. It also contains important precautions and notes about the various features and functions of this watch.

## Analog Hands (Hour, Minute)

In all modes, the hands indicate the Home City hour and minute.

## Map and Digital Dia

- Map: In all modes, the map shows the current World Time City time zone. Note however that the map shows the current Home City time zone while the Timekeeping Mode setting screen (page E-8) is displayed.
- Digital dial: In all modes, segments indicate the current World Time hour, minute,
and second. and second.

## Operation Guide 5472

Button Operation Tone

The button operation tone sounds any time you press one of the watch's buttons. You can turn the button operation one on or off as desired

- Even if you turn off the button operation tone, the alarms, the hourly time signal, and the countdown alarm all operate normally.

To turn the button operation tone on and off
In any mode (except when a setting screen is on the display), hold down (c) to toggle the button operation tone on (the mute indicator not displayed) and off (the mute ndicator displayed).

- Holding down (C) to turn the button operation tone on or off also causes the watch's current mode to change. button operation tone is turned off.

Auto Return Features

- If you leave the watch in the Alarm Mode or Hand Setting Mode for two or
three minutes without performing any operation, it automatically changes to the
Timekeeping Mode.
- If you leave a screen with flashing digits on the display for two or three minutes without performing any operation, the watch automatically exits the setting screen.

## Scrolling

You can use the (B) and (D) buttons to scroll data on setting screens. In most cases, holding down these buttons during a scroll operation scrolls at high speed.

## Initial Screens

When you enter the World Time or Alarm Mode, the data you were viewing when you last exited the mode appears first

## Timekeeping

- Resetting the seconds to $\boldsymbol{6}$ while the current count is in the range of 30 to

59 causes the minutes to be increased by 1 . In the range of 00 to 29 , the seconds 59 causes the minutes to be increased by 1 . In

- The year can be set in the range of 2000 to 2099.
- The watch's built-in full automatic calendar makes allowances for different month
lengths and leap years. Once you set the date, there should be no reason to change it except after you have the watch's battery replaced.

World Time

- The seconds count of the World Time is synchronized with the seconds count of the Timekeeping Mode.
- All World Time Mode times are calculated from the current Home City Time in the

Timekeeping Mode using UTC time offset values.

- The UTC offset is a value that indicates the time difference between a reference
point in Greenwich, England and the time zone where a city is located
- The letters "UTC" is the abbreviation for "Coordinated Universal Time", which is the world-wide scientific standard of timekeeping. It is based upon carefully maintained atomic (cesium) clocks that keep time accurately to within microseconds. Leap seconds are added or subtracted as necessary to keep UTC in sync with the Earth's rotation.

## Specifications

Accuracy at normal temperature: $\pm 30$ seconds a month
Digital Timekeeping: Hour, minutes, seconds, p.m., month, day, day of the week Ime far syst Full Auro
Calen: 2099

Analog Timekeeping: Hour, minutes
World Time: 48 cities ( 31 time zones) and Coordinated Universal Time
Other: Standard Time/Daylight Saving Time (summer time);
: Standard Time/Daylight Saving Time
Home City/World Time City swapping
Alarms: 5 alarms (One-time or Daily), hourly time signal
Countdown Timer
Measuring unit: $1 / 10$ second
Input range: 1 second to 24 hours (1-second increments, 1 -minute increments and 1 -hour increments)

## Stopwatch

Measuring unit: $1 / 100$ second
Measuring capacity: $23: 59^{\prime} 59.99^{\prime \prime}$
Measuring modes: Elapsed time, split time, two finishes
Illumination: LED (light-emitting diode); Selectable illumination duration
Other: Button operation tone on/off
Battery: One lithium battery (Type: CR2016
Approximately 5 years on type CR2016; 10 seconds of alarm operation, 1.5 seconds of illumination per day
