

Notification regarding the Auto Power Off function

This product is equipped with a function (Auto Power Off function) that automatically turns the product off if it is not operated in any way for a set period.

For some products, the time until this function turns the product off may differ from that shown in the manuals.

Refer to the following web page for the time until the product is turned off.

<https://s.casio.jp/e/10061en/>

If Auto Power Off is set to Off, the product does not automatically turn off and continues to use power.
