Introduction

This application lets you copy your computer's e-mail account settings to your Pocket PC for automatic configuration of the Pocket PC e-mail settings.

System Requirements

The following are the system requirements for running Mail Setup Manager for CASSIOPEIA.

Operating System: Windows NT 4.0, Windows 2000, Windows 98; with ActiveSync installed

Main Mail Software: Microsoft Outlook 2000, Microsoft Outlook 98, Microsoft Outlook 97 (Version 8.02.4212 or higher), Microsoft Outlook Express 5, Microsoft Outlook Express 4

Pocket PC: CASSIOPEIA EM-500 (Windows CE 3.0)

Note

- Mail Setup Manager supports copying of dial up e-mail account settings only.
- For information on installing ActiveSync, see the booklet accompanying the ActiveSync CD. For information on using ActiveSync, see ActiveSync Help.

Using Mail Setup Manager for CASSIOPEIA

Starting Up Mail Setup Manager

1. Turn on your computer and start Windows.
2. Tap **Start, Programs, Mail Setup Manager for CASSIOPEIA**, and then **Mail Setup Manager for CASSIOPEIA**.

Important!

The following message will appear on display of your Pocket PC if you do not have a supported version of Microsoft Outlook or Outlook Express installed on your desktop computer.

Your desktop computer does not have a supported version of Outlook or Outlook Express installed.

- Mail Setup Manager will not start up after the above message appears.
- See page 2 for information about supported mail applications.

Downloading Mail Account Settings

1. Connect your Pocket PC to your desktop computer and establish a link.
2. On your desktop computer, start Mail Setup Manager for CASSIOPEIA.
 - This causes the dialog box shown below to appear on your desktop computer's screen.

3. Click the ▼ button next to the upper text box. From the list that appears, select the name of the mail application whose account setup you want to transfer to your Pocket PC.
 - If you have only one supported mail application installed on your desktop computer, that application is the default setting.

Important!

The following message appears on your desktop computer screen if the mail application you select in this step does not have a mail account set up for it.

There is no mail account that can be downloaded from the currently selected mail application.

Either select another application or set up a mail account using the selected desktop computer mail application.

4. Click the ▼ button next to the lower text box. From the list that appears, select the name of the mail account whose setup you want to transfer to your Pocket PC.
 - If you have only one account set up for the mail application you selected in step 3, that account is the default setting.

5. Click **Download** to start download the selected account's setup to your Pocket PC.
 - See "Messages" below for information about what to do when a message about the connection or settings appears during download of a mail account setup.
6. The Mail Setup Manager dialog box in step 4 reappears after download is complete.
 - After a download, the **Cancel** button in the upper right of the dialog box becomes a **Quit** button.
 - Click the **Quit** button to quit Mail Setup Manager.
