## Linking with an Application (APP Function) (LK-265/266 Only)

## **APP Function**

Your Digital Keyboard can connect with a smartphone, tablet, or other smart device, which can then use a special app to playback songs from other than Digital Keyboard memory. You can play along with song playback on the keyboard.

The APP function has two modes, described below.

#### Play Mode

When a song is played by the app, notes and chord names appear on the Digital Keyboard's display. You can play along with a song on the keyboard while viewing information about which keyboard keys should be pressed on the app screen. In this mode, sounds played by the app itself will sound through the Digital Keyboard's speakers, so sounds will be different from those of the Digital Keyboard.

#### Store Mode

You can transfer a song from the app to the Digital Keyboard and store it as a user song.

A stored song can be played back as you play along on the keyboard, or used in a Step Up Lesson. Phrase Lesson is not possible.

## N IMPORTANT!

- Do not send APP function data from the app while the APP function of the Digital Keyboard is not enabled.
- The sound of data transferred from the Digital Keyboard may be audible under the conditions below.
  - When using the APP function while the APP indicator is not shown on the display
  - When app instrument connection is enabled
  - When transferring song data in the Save Mode
- Since the Play Mode and Store Mode have their own characteristics, using the same song in both modes will not result in the same performance.

## **Downloading the Special App**

Go to the website below to download the app and install it on your smart device.

http://web.casio.com/app/

## Preparing the APP Function for Use

You need to perform the steps below to prepare the APP function for use in either the Play Mode or the Store Mode.

 Use a commercially available audio cable to connect the **3** AUDIO IN jack of the Digital Keyboard to the headphones jack of the smart device.

## N IMPORTANT!

- · Do not use an audio cable that adds resistance.
- 2. Hold down 🕄 ᆂ APP.

This will cause the APP indicator to appear on the Digital Keyboard's display to indicate that the APP function is enabled.

**3.** On the smart device, start up the app.

## Using the App in the Play Mode

- **1** Prepare the APP function for use (page EN-20).
- 2. This enables app instrument connection.
- 3. From the song list in the app, select a song and play it.

The song will sound from the Digital Keyboard's speakers.

Chord information will appear on the Digital Keyboard display, and melody keyboard keys will light. Play along with the song on the keyboard.

#### NOTE

 During song play, the same notes will sound from the left and right speakers.

## Using the App in the Store Mode

- **1** Prepare the APP function for use (page EN-20).
- 2. Use **[** (10-key) [–] and [+] keys to select the song bank number where you want the song transferred from the app to be stored.

If you do not select a song bank number here, the Digital Keyboard will select an available storage location automatically, so you can skip this step if you do not need to specify a particular song bank number.

## NOTE

- You can select one of the user song bank numbers to store a transferred song.
- The tempo area of the Digital Keyboard's display shows how much user song memory has been used, while the measure area shows how much free memory is available.
- From the song list in the app, select a song and transfer it.

After data transfer and storage are complete, the APP indicator will disappear from the display and the song bank screen will appear.

## NOTE

- If the song bank number already contains data, the message "Replace?" will appear asking if you want to overwrite the existing data with the new data. Press the [+] (Yes) button to overwrite the existing data or the [-] (No) button if you do not want to overwrite.
- Normally, up to 30 songs transferred from a smart device can be stored in the song bank user song area.
- Storing songs that consist or large volumes of data may cause memory to become full before 30 songs are stored.
- The time it takes transfer a song depends on the size of the song. Transfer of most songs should take anywhere from around 10 to 30 seconds.
- Changes in app specifications may result in changes in the app's operational procedures. For details about the operation, see the app user documentation.

## Playing Saved Data (Songs)

- Press **[5]** SONG BANK and then use **[6]** (10-key)
   [-] and [+] keys to select a song.

#### Fingered 3, Full Range Chords/ Acordes Fingered 3, Full Range

In addition to the chords that can be fingered with Fingered 1 and Fingered 2, the following chords also are recognized.

Además de los acordes que se pueden digitar con Fingered 1 y Fingered 2, también se pueden reconocer los siguientes acordes.

$\frac{C^{\sharp}}{C} \cdot \frac{D}{C} \cdot \frac{E}{C} \cdot \frac{F}{C} \cdot \frac{G}{C}$	$\cdot \frac{A^{\flat}}{C} \cdot \frac{B^{\flat}}{C} \cdot$	$\frac{B}{C} \cdot \frac{C^{\sharp}m}{C} \cdot \frac{1}{C}$	Dm C • Fm C
$\frac{\operatorname{Gm}}{\operatorname{C}} \cdot \frac{\operatorname{Am}}{\operatorname{C}} \cdot \frac{\operatorname{B}^{\flat} \operatorname{m}}{\operatorname{C}} \cdot \frac{\operatorname{Ddin}}{\operatorname{C}}$	$\frac{n}{C} \cdot \frac{A^{\flat}7}{C} \cdot \frac{F7}{C}$	$\cdot \frac{Fm7}{C} \cdot \frac{Gm7}{C}$	• A <sup>l</sup> add9 C

#### 

- With Fingered 3, the lowest note fingered is interpreted as the base note. Inverted forms are not supported.
- With Full Range Chord, when the lowest note fingered is a certain distance from the neighboring note, the chord is interpreted as a fraction chord.
- Unlike Fingered 1, 2, and 3, Full Range Chord requires pressing of at least three keys to form a chord.

#### 

- Con Fingered 3, la nota más baja digitada se interpreta como nota base. No se pueden usar formas invertidas.
- Con Full Range Chord, cuando la nota digitada más baja se encuentre a cierta distancia de la nota adyacente, el acorde se interpreta como un acorde bitonal.
- A diferencia de Fingered 1, 2, y 3, Full Range Chord requiere la pulsación de tres teclas como mínimo para formar un acorde.
