In any mode, press to illuminate the display.

To change this setting, press  to reset to 00.

The operational procedures for Modules 3233 and 3234 are identical. All of the illustrations in this manual show Module 3234.

Button operations are indicated using the letters shown in the illustration.

Each section of this manual provides you with the information you need to perform operations in each mode. Further details and technical information can be found in the “Reference” section.

About This Manual

General Guide

• Press  to change from mode to mode.

• In any mode, press  to turn the Hourly Time Signal on and off.

• In any mode, press  for about one second to return to the Timekeeping Mode.

Timekeeping

Use the Timekeeping Mode to set and view the current time and date.

To set the time and date

1. In the Timekeeping Mode, hold down  until the seconds start to flash, which indicates the setting screen.
2. Press  to move the flashing in the sequence shown below to select other settings:

- Seconds
- Hour
- Minutes
- Day
- Month
- Year

To toggle between 12-hour and 24-hour timekeeping

• With the 12-hour format, the PM indicator appears to the left of the hour digits for times in the range of noon to 11:59 p.m. and no indicator appears to the left of the hour digits for times in the range of midnight to 11:59 a.m.
• With the 24-hour format, times are displayed in the range of 00:00 to 23:59, without any indicator.
• The 12-hour/24-hour timekeeping format you select in the Timekeeping Mode is applied in all other modes.

Procedure Lookup

The following is a handy reference list of all the operational procedures contained in this manual.

To set the time and date

To toggle between 12-hour and 24-hour timekeeping

To set an alarm time

To test the alarm

To turn the Hourly Time Signal on and off

To measure times with the stopwatch

To set the Dual Time

Stopwatch Mode

To use the Stopwatch Mode to mark times.

Dual Time Mode

To use the Dual Time Mode to use the timekeeping mode for times in a different time zone.

Alarm

The multi-function alarm lets you specify the hour, minute, month, and day for the alarm (page E-10). You can set up the alarm so it sounds once when the alarm time is reached, or for a snooze alarm that repeats up to seven times, every five minutes.

You can also turn on an Hourly Time Signal that causes the watch to beep twice every hour on the hour.

An alarm setting (and an Hourly Time Signal setting) is available in the Alarm Mode, which you enter by pressing (page E-4).

• With the 24-hour format, times are displayed in the range of 00:00 to 23:59, without any indicator.
• The 12-hour/24-hour timekeeping format you select in the Timekeeping Mode is applied in all other modes.
Operation Guide 3233/3234

Alarm Types
The alarm type is determined by the settings you make, as described below.

• Daily alarm
Set the hour and minutes for the alarm time. This type of setting causes the alarm to sound everyday at the time you set.

• Date alarm
Set the month, day, hour and minutes for the alarm time. This type of setting causes the alarm to sound at the specific time on the specific date you set.

• 1-Month alarm
Set the month, hour and minutes for the alarm time. This type of setting causes the alarm to sound everyday at time you set, only during the month you set.

• Monthly alarm
Set the day, hour and minutes for the alarm time. This type of setting causes the alarm to sound every month at time you set, on the day you set.

To set an alarm time
1. In the Alarm Mode, press \( \text{A} \) to display the alarm screen.
2. Hold down \( \text{A} \) until the hour setting of the alarm time starts to flash, which indicates the setting screen.
   • This operation automatically turns on the one-time alarm.
3. Press \( \text{D} \) to move the flashing in the sequence shown below to select other settings.

<table>
<thead>
<tr>
<th>Hour</th>
<th>Min</th>
<th>Month</th>
<th>Day</th>
</tr>
</thead>
<tbody>
<tr>
<td>1:00</td>
<td>00</td>
<td>01</td>
<td>01</td>
</tr>
<tr>
<td>1:10</td>
<td>00</td>
<td>01</td>
<td>01</td>
</tr>
</tbody>
</table>

4. While a setting is flashing, press \( \text{A} \) to increase it.
   • To set an alarm that does not include a month (Daily alarm, Monthly alarm), set \( \text{F} \) for the month. Press \( \text{A} \) until the \( \text{F} \) mark appears (between 12 and 1) while month setting is flashing.
   • To set an alarm that does not include a day (Daily alarm, 1-Month alarm), set \( \text{H} \) for the day. Press \( \text{A} \) until the \( \text{H} \) mark appears (between the end of the month and 1) while the day setting is flashing.
   • When setting the alarm time using the 12-hour format, take care to set the time correctly as a.m. or p.m. (P indicator).
5. Press \( \text{A} \) to exit the setting screen.

Alarm Operation
The alarm tone sounds at the preset time for about 10 seconds. In the case of the snooze alarm, the alarm repeats up to seven times every five minutes.

• Pressing any button stops the alarm tone operation.
• The alarm and the Hourly Time Signal sound in all modes.

To select the alarm type
1. In the Alarm Mode, press \( \text{C} \) to display the alarm screen.
2. Press \( \text{A} \) to cycle through the available alarm settings shown below.

   - The alarm on indicator and the snooze alarm on indicator are shown on the display in all modes while these functions are turned on.
   - The snooze alarm on indicator flashes during the 5-minute intervals between alarms.

To test the alarm
• In the Alarm Mode, hold down \( \text{A} \) to sound the alarm.

To turn the Hourly Time Signal on and off
1. In the Alarm mode, press \( \text{B} \) to display the Hourly Time Signal screen.
2. Press \( \text{A} \) to turn it on and off.

   Indicates Hourly Time Signal is on.

   Indicates Hourly Time Signal is off.

   The Hourly Time Signal on indicator is shown on the display in all modes while this function is turned on.

Stopwatch
The stopwatch lets you measure elapsed time, split times, and two finishes.

1. 1/100 second
2. 59 minutes, 59.99 seconds
3. The stopwatch continues to run, restarting from zero after it reaches its limit, until you stop it.
4. The stopwatch measurement operation continues even if you exit the Stopwatch Mode.
5. Exiting the Stopwatch Mode while a split time is frozen on the display clears the split time and returns to elapsed time measurement.
6. All of the operations in this section are performed in the Stopwatch Mode, which you enter by pressing \( \text{C} \) (page E-5).

To measure times with the stopwatch

<table>
<thead>
<tr>
<th>Elapsed time</th>
<th>Start</th>
<th>Stop</th>
<th>Re-start</th>
<th>Stop</th>
<th>Clear</th>
</tr>
</thead>
<tbody>
<tr>
<td>Split time</td>
<td>Start</td>
<td>Split (SPL displayed)</td>
<td>Stop</td>
<td>Split release</td>
<td>Stop</td>
</tr>
<tr>
<td>Two Finishes</td>
<td>Start</td>
<td>Display time of first runner</td>
<td>Stop</td>
<td>Display time of second runner</td>
<td>Split release</td>
</tr>
</tbody>
</table>

Dual Time
The Dual Time Mode lets you keep track of time in a different time zone.

1. In the Dual Time Mode, the seconds count is synchronized with the seconds count of the Timekeeping Mode.

To set the Dual Time
1. Press \( \text{C} \) to enter the Dual Time Mode (page E-5).
2. In the Dual Time Mode, hold down \( \text{A} \) until the hour setting starts to flash, which indicates the setting screen.
3. Press \( \text{A} \) to change the selection in the following sequence.

<table>
<thead>
<tr>
<th>Hour</th>
<th>Minutes</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>00</td>
</tr>
<tr>
<td>02</td>
<td>00</td>
</tr>
</tbody>
</table>

4. Press \( \text{A} \) to increase the setting.
5. Press \( \text{A} \) to exit the setting screen.
Reference
This section contains more detailed and technical information about watch operation. It also contains important precautions and notes about the various features and functions of this watch.

Auto return features
• If you leave a screen with flashing digits for two or three minutes without performing any operation, the watch automatically saves any settings you have made up to that point and exits the setting screen.

Data and Setting Scrolling
The  button is used to scroll through setting screen data on the display. Holding down this button during a scroll operation scrolls through the data at high speed.

Specifications
Accuracy at normal temperature: ±30 seconds a month

Timekeeping:
- Hour, minutes, seconds, p.m. (P), month, day, day of the week
- Time system: Switchable between 12-hour and 24-hour formats
- Calendar system: Full Auto-calendar pre-programmed from the year 2000 to 2099

Alarm:
- Multi-function: alarm (One-time or 7-time snooze); Hourly Time Signal
- Alarm type: Daily alarm, Date alarm, 1-month alarm, Monthly alarm

Stopwatch
- Measuring unit: 1/100 of a second
- Measuring capacity: 23:59' 59.99''
- Measuring modes: Elapsed time, split time, two finishes

Dual Time:
- Hour, minutes, seconds, p.m. (P)

Other:
- Backlight (light-emitting diode)

Backlight Precautions
The backlight uses an LED (light-emitting diode) and a light guide panel that cause the entire display to glow for easy reading in the dark.
- In any mode, press  to illuminate the display for about one second.
  • The illumination provided by the backlight may be hard to see when viewed under direct sunlight.
  • The backlight automatically stops illuminating whenever an alarm sounds.
  • Frequent use of the backlight shortens the battery life.

Battery: One lithium battery (Type: CR2025)
Approximately 10 years on type CR2025 (assuming alarm operation 10 sec./day, and one backlight operation 1.5 sec./day)
Frequent illumination shortens the battery life.
